

Say Vaughan Put Heat On For Molasses Firm

Testify He Helped Boost Sugar Ration

Washington, Aug. 17—(AP)—Senator Mundt (R-S.D.) today called Maj. Gen. Harry Vaughan a "finagling bargainer" full of "intimidation, bluff and bluster," and Senator McCarthy (R-Wis.) demanded that John Maragon be indicted for perjury.

Vaughan is President Truman's army aide.

Maragon, a one-time Kansas City shine boy, has become the friend of many a Washington official, including Vaughan.

Heard At Probe

Mundt's outburst came at a Senate investigations subcommittee hearing after a former agriculture department employee said that Vaughan had put the heat on to give more sugar to a New Jersey molasses company.

The employee, Herbert C. Hathorn, said Vaughan made the attempt back in the days of sugar rationing.

Hathorn said the firm Vaughan wanted to get the sugar for, the Allied Molasses Co. of Perth Amboy, N. J., had been a "flagrant and willful violator" of a department order suspending it from receiving any more molasses.

Hathorn said Vaughan made it plain that he could get Hathorn's job.

Here Mundt broke in to say that previously he had thought of Vaughan as a "fumbling bungler."

"In this case," said Mundt, "he was a finagling bargainer."

"Perhaps," Mundt continued, "I have been unduly charitable, and I just want to say, I don't like it at all."

McCarthy made his demand for a perjury indictment of Maragon after Milton R. Pollard testified that he had paid Maragon \$1,000—\$500 by check and \$500 in cash, to help get Allied Molasses more sugar.

Pollard is a Milwaukee insurance man whose nephew, Harold W. Ross, is president of Allied.

Last month Maragon appeared before the subcommittee at a closed session.

Testifying under oath, Maragon said that he never had been paid any money by anyone for negotiating business with the government.

This was read into the record today. And a \$500 cancelled check of Pollard's, dated Nov. 20, 1946, and endorsed by Maragon, was made part of the subcommittee's exhibit.

Asks Maragon Indictment

Said McCarthy heatedly:

"We should ask the justice department to take this matter over and ask that an indictment for perjury be returned against Maragon."

One of the committee's lawyers, Francis D. Flanagan, reminded the senators that Maragon had not listed any payment from Pollard or Allied Molasses on his income tax returns.

Today's hearing was sometimes stormy, sometimes humorous, and, as usual, always tangled.

The subcommittee is studying the activities of the "five percenters." These men offer to help business men get government contracts in return for a fee, and the committee wants to find out how much influence they actually have.

Arrest Purdue U. Cashier Who Stole School's Money

Chebeogan, Mich., Aug. 17—(AP)—Resigned and weary, Purdue University's handsome cashier was taken back to Indiana today to face the music.

It had been a hectic week for 39-year-old William W. Hollenbe. He told police he had driven day and night since he fled Aug. 10 with \$2,000 in university funds.

They arrested Hollenbe last night in a resort bar.

"I'm glad it's all over now," he said.

In the past three years, Hollenbe told police Sgt. Erdman Stahl, he had pocketed between \$5,000 and \$6,000 from the Purdue treasury in Lafayette, Ind. The university confirmed that "irregularities" had been found in his accounts.

During this time Hollenbe was a respected member of the university community. He had worked five years for the university where he graduated in 1931. The Lafayette Eiks had elected him their exalted ruler. He lived in a comfortable home with his wife and three children.

Senate Approves Two Reorganization Plans

Washington, Aug. 17—(AP)—The senate approved two of President Truman's government reorganization plans today.

One of them, officially called plan No. 2, gives the stripped down Labor department a potent transfusion by transferring to it the job-finding and unemployment compensation functions now handled by the federal security agency.

The other, plan No. 7, transfers the public roads administration to the department of commerce. It now is in the recently organized general services administration headed by Jess Larson.

These plans and four others are due to take effect at midnight Friday.

President Truman submitted the seven reorganization plans in June. Under a law passed this year, such plans go into effect 60 days after submission, provided that neither House of congress disapproves them by a majority of its full membership.

Plans No. 1, 2 and 7 met with opposition in the senate expenditures committee. Separate resolutions of disapproval were forwarded to the senate. No. 1 was disapproved last night by a vote of 60 to 32.

But the resolution expressing disapproval of plan No. 2 received only 32 votes, with 57 against the resolution. The disapproval resolution would have had to have received 49 votes for the plan to be junked.

Plan No. 7 came through 47 to 40, with opponents of the shift nine votes short of the showdown.

The House has no action scheduled on the plans, so that barring some unforeseen hitch they will go into effect Friday midnight.

Consulate General To Leave Canton For Chungking

Canton, Aug. 17—(AP)—The U. S. consulate general expects to close by Friday and join the exodus to a new refugee capital at Chungking ahead of onrushing Chinese Red armies.

Responsible Chinese sources said 10,000 government employees and dependents already have moved from this refugee capital to Chungking. Chungking, 600 miles northwest, was the wartime capital of China.

Latest private reports had put the Reds little more than 150 miles from Canton on the northeast. An army spokesman denied, however, that the Reds had yet crossed the Kwanlung province border. The border is 160 miles away on the route the communist armies are taking.

The U. S. consulate general already has shut down the visa and citizenship sections. American missionaries were awaiting word from home before deciding whether to flee. Many Americans have left.

Illinois Railroads Win Permission For 5-Day Week

Springfield, Aug. 17—(AP)—Illinois railroads and the railway express agency today won permission to cut down freight station operations to five days a week.

The Illinois Commerce commission granted the authority, effective Sept. 1. Passenger stations are not affected.

Under a nationwide agreement, the railroads' non-operating employees, including freight handlers, go on a five day, 40 hour week Sept. 1. They work six days a week.

Spokesmen for the 52 railroads operating in Illinois said their wage costs might increase \$14,000,000 a year unless the freight stations were put on a five day basis.

The commerce commission directed that emergency and seasonal shipping requirements be handled on closed days. The stations are expected to shut down Saturdays and Sundays.

Theodor Herzl Is Buried In Israel

Jerusalem, Aug. 17—The body of Theodor Herzl, Austrian-born founder of modern political Zionism, was lowered into a bombproof tomb today on the highest of Jerusalem's seven hills.

Herzl, who died in Vienna in 1904, predicted a half century ago that a Jewish state would arise within 50 years. His body was flown from Vienna to Israel's Lydda airport yesterday and taken to Tel Aviv where it lay in state throughout the night.

U. S. Lets Yugoslavia Purchase Steel Mill

Washington, Aug. 17—(AP)—The United States has granted Yugoslavia permission to buy the materials for a steel mill from an American company, government officials disclosed tonight.

The decision marks the biggest step yet by the American government to strengthen Marshal Tito in his fight with Moscow.

It is the first time since the cold war began that the administration has agreed to ship "war potential" goods to a Communist-ruled nation.

The shipment was approved after months of argument between the state and national defense departments and other top agencies of the government.

The mill, valued at approximately \$3,000,000, will be built by the Continental Foundry and Machinery Co. of Pittsburgh and is to be delivered in 12 months.

These government officials said it is a blooming and slabbing mill designed to process and refine steel ingots and would not increase Yugoslavia's steel capacity but only its ability to refine it.

Secretary of State Acheson, it was learned, led the fight for approval within the administration, arguing it was a "calculated risk" necessary to bolster Yugoslavia's recovery.

The Yugoslav government, in appealing for the right to place an order for the mill, said it was vitally needed to turn out rails and other structural steel essential to the Yugoslav recovery program.

Secretary of Defense Louis Johnson first opposed the deal on security grounds, officials said. But later, he dropped his objections on the understanding the decision can be reviewed prior to shipment in the light of conditions existing then.

Deliberating Jury For Lonely Hearts Pair At Standstill

New York, Aug. 17—(AP)—The jury in the lonely hearts murder trial deliberated the fates of Martha Beck and Raymond Fernandez for more than an hour tonight, then ran into a stumbling block.

The jury sent out word it wanted a look at the confessions allegedly made by the accused slayers during questioning in Michigan.

The prosecution quickly agreed, but Defense Attorney Herbert B. Rosenberg studied some law books and said he would not consent.

The state has asked a first degree murder verdict against the two, charging they murdered an elderly widow for her \$6,000 savings. Such a verdict makes the death penalty mandatory.

The statements cover 131 pages and took more than four hours of reading during the trial.

Supreme Court Justice Ferdinand Pecora called the jury back and asked if "your purpose was to enable you to reconcile or resolve any differences of recollection among your members."

"Yes, sir," the foreman replied.

The judge then told the jury the statements could be read to them in court.

The foreman asked for reading of part of a statement allegedly made by Fernandez, detailing events just before the slaying.

The prosecutor began reading the statement.

Widow Of Founder Of Copley Press Leaves \$500,000

Geneva, Ill., Aug. 17—(AP)—Mrs. Chloe W. Copley, 62, widow of the founder of the Copley Press, left an estate of more than \$500,000, her will showed today.

The will was filed in probate court here. Mrs. Copley, widow of Col. Ira C. Copley, lived in nearby Aurora. She died Aug. 1 in Los Angeles.

The Copley Press controls 12 California newspapers and five in Illinois.

A daughter, Mrs. Eleanor Blenman, and a grandson, William Wilbourne III, both of Tucson, Ariz., are the principal beneficiaries.

After bequests, Mrs. Blenman receives four-fifths of the estate. Wilbourne, her son by a previous marriage, receives the other one-fifth.

Mrs. Copley left her sister, Mrs. Eleanor Doerr of Minneapolis, \$50,000. Four nieces and nephews each received \$12,500. They are children of Mrs. Doerr.

Beran Claims He Was Held Captive By Reds

Arms Aid Plan Starts Hot Debate In House

Washington, Aug. 17—(AP)—President Truman's \$1,450,000,000 foreign arms program touched off hot debate in the House today, while Socialist Norman Thomas urged congress to delay the measure and try first to bring about universal disarmament.

The House rang with arguments for and against the historic plan to help arm "friendly nations" abroad. Military aid from the U.S. is urgently needed because Western Europe lives in the shadow of the huge Russian army, said Chairman Kee (D-W. Va.) of the foreign affairs committee.

Leading the fight for approval of the program, Russia is not maintaining 200 armed divisions "for the mere purpose of parades," he declared.

"This is an insane program, a program of war," declared Rep. Marcantonio of New York, only American laborite in the House. What has happened in the countries of Europe, he said, was purely domestic — "their revolutions were purely domestic."

Rep. Smith (R-Wis.) issued a statement saying the bill violates the spirit of the United Nations charter and is militarily indefensible in the age of the atomic bomb.

"I believe it is necessary for congress to go halfway now," said Rep. Vorys (R-Ohio), urging the House to hold back half the \$1,450,000,000 requested for European members of the Atlantic pact until they agree on a common plan of defense. Vorys announced he will support an amendment to that effect by Rep. Richards (D-S.C.), who was applauded loudly when he explained his idea.

By a vote of 275 to 47 approving procedure under which the debate began, the House indicated that the bill has strong support. This vote was not a true test of sentiment on the measure, however, since members often vote to allow a bill to come up and then oppose it when their amendments are rejected.

Congress Votes To Let U.S. Agencies Keep On Spending

Washington, Aug. 17—(AP)—Congress voted today to let the army, navy, air force and other important divisions of government go on spending money even though their current appropriations are still in dispute.

The Senate quickly followed the lead of the House in approving a resolution which will release the agencies from their flat-broke status as soon as it is signed by the president. Officially they ran out of money at midnight Monday, and couldn't legally buy anything or even pay the help.

The stop-gap resolution, allowing them to continue their regular activities until September 15, is the third such resolution adopted this year. Chairman Cannon (D-Mo.) of the House appropriations committee flipped through the record books and said this was the first time that had happened.

In all, more than \$20,000,000,000 is involved.

ICC Authorizes 3 Utilities To Begin Supplying Gas Heat

Springfield, Ill., Aug. 17—(AP)—The Illinois Commerce Commission today authorized three utilities to start supplying natural gas for house heating to a total of 11,300 additional customers.

The order affects only northern Illinois residents.

Since the state's natural gas shortage developed several years ago, the commission has forbidden utilities to switch residence subscribers from other fuels to gas. Its action today modified the earlier prohibition.

The three utilities, along with the number of extra houses they are authorized to supply with gas are: People's Gas Light and Coke company, 6,000; Public Service Company of Northern Illinois, 4,000; and Western United Gas and Electric company, 1,300.

People's Gas, Light and Coke was given until next July and the other two utilities until next April 30 to effect changeovers.

Charges Minnesota Doctors Bribing Press Of State

Washington, Aug. 17—(AP)—A charge was made today—and immediately denied—that when Minnesota's physicians decided to advertise their offered "an open bribe to the press of the state."

The committee for the nation's health said that a resolution to permit newspaper advertising, adopted recently by the Minnesota Medical Association, is a part of the doctors' "fight against national health insurance and other measures of the Truman health program."

A spokesman for the Minnesota doctors promptly denied the committee's charge that the resolution amounted to a bribe offer.

R. R. Rosell, executive secretary of the Minnesota state medical association, told a reporter in Minneapolis:

"The resolution passed by the state association is nothing new. It defined what a doctor can do in the way of personal advertising; that is exactly the same as it has been for years."

Two-Months Silence Is Broken

Prague, Czechoslovakia, Aug. 17—(AP)—Archbishop Josef Beran broke a two-months silence today and accused the Communist government of holding him captive in violation of his constitutional rights.

The stocky little 60-year-old Roman Catholic primate has not appeared in public since June 19 when a sermon he tried to preach was shouted down by Communist hecklers.

He claims now that he has been interned and isolated in his Prague palace.

Archbishop Beran accused the government of illegally seizing his consistory (administrative office) and confiscating the funds of his Prague diocese.

Accusation In Letter

He made the charges in a letter to the state procurator (prosecutor) which was given to the foreign press through church and diplomatic channels. In his letter, the country's leading Catholic official asked bluntly:

"Is the Roman Catholic church in Czechoslovakia still recognized by the state? If so, by what law was the Roman Catholic church deprived of its legal independence in internal matters?"

Archbishop Beran's questions and charges indicated the church hierarchy might be trying to force a break in the deadlocked church-state fight. This was emphasized by the decision to give the Catholic leader's letter publicity through the western press and through western broadcasts which are beamed back into Czechoslovakia.

The communist-controlled Prague press repeatedly has claimed the archbishop was free to leave his palace but that he wanted to remain in seclusion and "pose as a martyr."

Newsman Kept Away

Inquiring newsmen never have got past the ground floor reception desk of the palace where plain clothes police have been on duty. It is known, however, that the Vatican diplomatic representative in Prague has been getting in to see the archbishop.

Archbishop Beran declared that during his weeks in seclusion he received no answers to complaints to government ministries and virtually no mail. He said he had complained to the ministry of interior, the ministry of education and other state agencies about what he considered were violations of his own and the church's rights.

"I am forced to turn to the state procurator," he wrote, "(since) it is impossible for me to confer with a legal representative—no one is permitted to visit me—and then, too, all (lawyers) are afraid that they would lose their practice if they wished to protect my interests."

Urges Delay In Admitting West Reich Into Council

Strasbourg, France, Aug. 17—(AP)—Winston Churchill urged the E.U. to delay consideration of the admission of the west German republic until a German delegation is ready to take its seats.

The former British prime minister's action was a surprise. He had been expected to move for prompt admission of the German republic.

Churchill, however, asked that the ministerial committee, upper house of the Council of Europe, call an extraordinary session of the assembly in December or January to take up the admission of Germany. He added:

"It is my hope that we should find ourselves already joined by a German delegation, similar to those of other member states. But if this cannot be done, then will be the time for us to debate the issue in full freedom."

Acheson Cautions Germany Against Criticizing West

Washington, Aug. 17—(AP)—Secretary of State Acheson cautioned the western Germans today against too much criticism of the western occupation powers.

Acheson told a news conference that "constructive criticism" is to be expected in the new German state and that the Germans should not be denied this privilege.

But, he emphasized, "abuse of such freedoms" may alienate the sympathy of the western powers and fail to serve the interests of the German people.

"The Germans may well be reminded," he said, "that they are exercising these freedoms only because they are privileged to live under the jurisdiction of freedom loving nations."

Acheson spoke out in a formal statement three days after the end of the hectic political campaign in west Germany which saw some extreme politicians denouncing the occupation policies of Britain, France and the United States.

A PERIOD OF RECONSTRUCTION

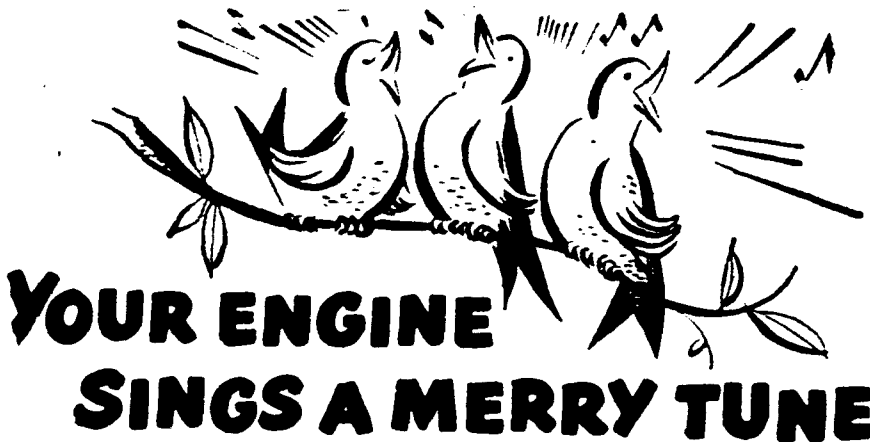

If you work in a loop store or office, you've heard them coming. Electric drills, raising a clatter like a hundred woodpeckers on a tin roof; trucks that groan and rumble under heavy loads; bulldozers built for brute service, rather than silent performance—all herald the approach of full scale paving operations. With these machines are toiling, sweating men, busy with the preliminary steps toward giving the city's loop streets a brand new concrete surface.

Some of the streets have been torn up, and are well nigh impassable. Traffic moves at its own risk. Barriades have been erected at spots where holes have been cut into the old pavement base for gas or sewer connections. The entire loop district has become a noisy place, difficult to travel; but that's what we have been waiting for. Big paving projects of this kind cannot be done in a day or week. Pavements cannot be laid without noise or inconvenience to the public.

The fire department has a well-defined system of detours to be used while the streets are torn up. Business men whose establishments are located on loop streets have problems of getting in and out. Hundreds of drivers have started along streets, only to find them blocked. But that is all part of the experience of getting new pavements, curbs and storm sewers.

Within a few weeks most of the loop streets will be limited to one lane traffic. Sewer pipe is scattered over boulevards and walks. Piles of earth and concrete clutter the business streets adjacent to the square. We will have plenty of detouring and dodging to do for some weeks to come.

Should visitors to Jacksonville comment on the present appearance or condition of loop streets, invite them to come back next year. The loop in 1950 will boast a new look as modern as engineering skill can make it.

Vaccination Has Saved Countless Peoples' Lives

By Edwin P. Jordan, M.D.
Written for NEA Service

Smallpox now is fortunately rare in civilized countries. The fight against this horrible disease took a new turn in 1718 when Lady Mary Wortley Montagu introduced into England the practice of inoculation.

This was simply taking material from a pock or pustule of a person suffering with the disease and scratching it on the skin of a person (usually a child) who had never had smallpox.

This produced the disease in the inoculated person, but it was usually less severe and caused less scarring than if the disease had been caught in the usual way.

Jenner's Experiment
The greatest discovery came about 1796 when Edward Jenner, a country

practitioner and son of a clergyman, in Gloucestershire, England, made his famous experiments on a boy, James Phipps.

Jenner noticed that the milkmaids did not seem to get smallpox even when almost all others in the community came down with the disease. He observed that most of the milkmaids had small scars on their hands as a result of a mild disease present on the udders of cows, called cowpox.

With pus taken from a pustule on the hand of a cowpox-infected milkmaid, Jenner inoculated James Phipps. This boy developed the usual changes of the skin which is characteristic of what we now call vaccination. Six weeks later Jenner inoculated young James with pus from a patient with smallpox and set down to wait. The vaccination had "taken" and the boy proved resistant to smallpox. It was in this way that modern vaccination was born.

Since Jenner's classic experiment, vaccination has proved its worth thousands of times and has prevented millions of deaths. Even today if a community has too many persons in it who have not been vaccinated recently, there is danger of outbreaks of this terrible disease of smallpox.

The Doctor Answers

By Edwin P. Jordan, M.D.
Question: My 80-year old mother has had trouble with aching and stiffness in the muscles and joints since she had the flu last January. She does not seem to be getting better.

Answer: It sounds as if this were some form of "rheumatism" which had been brought on by the acute bout with influenza. Such things are quite common. There is a good chance that she will get over this difficulty although it may take longer than for a younger person.

Polio Authorities Say School Terms Won't Be Delayed

Springfield, Ill., Aug. 17.—(AP)—State health authorities said today the opening of fall school terms should not be postponed except as a "last resort" in controlling polio outbreaks.

Most schools are scheduled to resume classes Sept. 6 but some of them have an Aug. 29 opening date. Dr. Roland R. Cross, state health director, said a statement being prepared for guidance of school authorities "will be to the effect that schools should open."

"If schools open, the children are controlled and stay together. If schools are closed, the children will wander around and be subject more to exposure," he told a reporter.

Dr. Cross said that closing of schools as an anti-polio measure "should be considered as a last resort" and used only when "application of all other measures fails."

Dr. Cross said that a final decision on opening schools will be up to school boards and health authorities. "Some schools probably will open on time and some will not," he said.

Vernon L. Nickell, state school superintendent, said he is advising local school authorities to follow recommendations of the local health authorities.

Meanwhile, the number of polio cases in Illinois continued to mount. Sixty-nine new cases were reported by the State Health Department today, increasing the total this year to 1,058.

The department has recorded 72 deaths.

Car Collides With Parked Machine; Driver Injured

Several cuts and bruises were sustained by George L. Bourke, 1029 Mathers street, when his 1939 Ford sedan collided with a parked car in the 300 block on East Douglas avenue early Wednesday morning.

Bourke was traveling west on Douglas avenue at 1:10 a.m. His car is reported to have struck a Buick sedan owned by Vassie Eftimoff, which was parked at the curb.

Members of the police department took Bourke to the city hall where he was attended by Dr. T. O. Hardesty. Bourke suffered two cuts on his left arm and a cut over his left eye.

Both automobiles were considerably damaged.

Bakery Delivery Truck Overturns; Driver Bruised

James McKenzie, 132 City Place, narrowly escaped serious injury early Wednesday morning when the delivery truck he was driving for the Ideal Bakery overturned at the south edge of Franklin on Route 104.

The accident occurred about 4:30 a.m. as McKenzie headed onto the highway from a gravel road. The truck slipped on a curve, crashed through a guard rail and down an embankment, overturning several times. A heavy fog, which impaired visibility, is believed to have caused the accident.

The driver escaped with only minor cuts and bruises. The truck, however, was damaged extensively.

Who Wants Diamonds—Unless They're Free?

By ED CREAGH
(For Hal Boyle)

New York, Aug. 18.—(AP)—If you really can't decide what to get me for Christmas, there's a little doodad on display over at the Waldorf-Astoria that would suit me like chestnut dressing suits roast Turkey.

Not that I'm hinting, mind you. As a matter of fact I'm not sure what I am doing. I've just come back from the \$35,000,000 jewel show at the Waldorf and frankly, friend, I'm glitter-happy.

The American National Retail Jewellers, whose baby it is, says it's the biggest display of precious stones and baubles ever held. Acres of diamonds. Bushels of rubies. Pearls by the peck.

Quite a Lighted
Anyhow, there I was, holding a cigarette and wishing I had a match, when a big, happy looking fellow held out a tricky little gadget, touched a button and presto! There was flame.

"Thanks," I said, lighting up. "That's quite a lighter."
"You like it?" said the man, Carl Begemann of the American Safety Razor Corp. "Well, sir, you can have this lighter—"

"Gosh, thanks. But—" "For \$5,000," continued Begemann, looking even happier. I didn't say anything. I couldn't. Then he should come along but a well-proportioned, brown-eyed, blonde named Roma Paige, all decked out in a white nylon bathing suit with pearls dripping from every thread.

Look Expensive
"Don't I look expensive?" She asked brightly. "You're supposed to guess how many pearls I'm wearing. If you guess right you win a magnum of Champagne."

I guessed 2,515 but that couldn't have been right because a woman's handbag I examined a few minutes later turned out to be covered by 14,000 pearls, and Miss Paige's swim suit was much larger than the handbag.

Well, a little larger, anyway. "Actually," whispered Miss Theresa Jacobson, who was guarding the handbag, "there are only 13,999

pearls. Somebody dropped it and one pearl fell off.

But there are 20 carats of diamonds and 30 carats of rubies and the setting is pure palladium.

Sold Three of Them
Miss J. looked elaborately casual. "Twenty thousand dollars," she said. "It's the most expensive handbag in the world. We've sold three just like it—one each in Memphis, Miami and Los Angeles."

That did it. If a woman can pay 20 perfectly good G's for a pearly old handbag that she'll probably leave behind in the movies someday, who says a \$5,000 lighter set is too good for uncle?

So as we were saying about that Christmas remembrance— But don't let me know you're ordering it, will you? I want it to be a surprise.

White Sox Blank Detroit 1 To 0

Chicago, Aug. 17.—(P)—The Chicago White Sox scored their third straight shutout victory when they edged Detroit, 1-0, before 20,919 persons here tonight. Wisconsin Gives Deer Hunters Five-Day Antlerless Season

Madison, Wis., Aug. 17.—(P)—The annual upsurge which heralds the advent of deer hunting regulations in Wisconsin ended today. Gov. Oscar Rennebohm signed a five-day antlerless deer season bill.

That means hunters in the state, where natives cling devotedly to the frontier admonition that "does ain't deer" will shoot does and yearling bucks if they want any venison at all. The season is Nov. 19-23 in 47 counties.

This will be the first statewide season in history when trophy bucks aren't fair game. The last time does were shot generally was in 1943 when a split season harvested 66,252 big bucks, then later 62,044 does and fawns. Big game bow and arrow hunters, have been allowed one deer of either sex as a regular thing. The

archers' usual 45 day season opens Sept. 24 in all 71 counties.

Members of the six-man state conservation commission admit privately that this isn't intended as a sporting season, but as a control measure. Even at that, they say, it's a compromise. Wisconsin's deer herd, the largest in the nation, now numbers well over 1,000,000 animals. Last year the Wisconsin conservation congress, a quasi-official organization of sportsmen from the 71 counties, argued all night before deciding that the herd faced winter starvation and surplus animals out to be harvested.

The commission agreed and prepared an order allowing hunters to take one deer each, of any age or sex, in an effort to bring the herd down to support level. But Gov. Rennebohm vetoed the order as hasty, promising he would ask the legislature for a complete modern controlled hunting law to allow harvest by areas.

Meanwhile some hundreds of thousands of fawns were added to the herd as the result of a mild winter.

And this year, the legislature became entangled with details of controlled hunting and in an adjournment jam failed to act.

New football coaches for the 1949 season in Illinois high schools include Warren E. Harris at Edwardsville; Robert Heaton at Princeton; Howard Berline at White Hall; John Lukachuk at Arthur; Norris Patterson at Danville; Walter Ritchie at Litchfield; Verdie Altizer at Arenzville; Paul Stroud at Routh; W. J. Treat at Franklin; Marvin Schutz at Feltshans; Guy Ricci at Tremont; Edward Migielicz at Lincoln; Robert Neuman at Normal high; E. W. Posey at Winchester; Fred Scharf at Wood River; Howard Lester at Carlinville and Bob McDonald at Colfax.

The elimination round over the University of Michigan's 6,000-yard par 72 course left a tough quartet of favorites ready for tomorrow's round. Reggie Myles, Jr., East Lansing, Mich., won his morning match by default and came from behind in the afternoon to down Dick Shambaugh, Toledo, Ohio, the hard way. Myles was two down at the turn with a two-over-par 38. But he toured the back nine with a one-under-par 35, evened the match on the 13th, and took the last two holes to win two up.

Bob Olson, W.G.A. 1948 runner-up, defeated Charles Spross, of Toledo, three and two, in the morning match, and took Jim Dixon, a favored dark horse, two and one in the afternoon. Olson will meet Miles Schlapik, of Chicago, tomorrow, and Myles faces Dean Lind, Rockford, Ill. Schlapik defeated Lee Hochsprung, Aurora, Ill., four and three this morning and Douglas Campbell, Madison, Wis., three and two in the afternoon. Lind was in command all the way, taking Bob Bruce, Madison, Wis., five and four in the morning, and Howard Rosen, Chicago, five and three in the afternoon.

Winchester will travel to Hannibal, Mo., for the first game of the 1949 season and it will be plenty of competition as the Missouri eleven are always strong in all sports. Jacksonville high plays at Winchester in the other non-loop game Sept. 23 before the Wildcats go after their first Ivy football title with the Carrollton Hawks at home Sept. 30.

In winning their first game under Acting Manager Johnny Cooney, the Tribesmen rolled up their biggest run total of the season.

Ten men went to bat in the second inning against starter, and loser, Clint (Floppy) Hartung and Adrian Zabala.

After picking up their seventh run in the third the Braves batted around in the fourth for four more. They picked up their other two scores in the sixth.

Cuban, 32, Starts Channel Swim

Cap Griz Nez, France, Thursday, Aug. 18.—(P)—Jose Cortinas, 32-year-old Cuban, starting swimming across the English channel this morning at 12:45 a.m. (5:45 p.m. CST Wednesday).

Cortinas said he hoped to beat the men's channel record of 11 1/2 hours.

Cortinas said he was sorry Shirley May France, American girl swimmer, was not going along with him. "I regret she didn't go," he said, "because I would have liked to have someone to talk to."

Shirley May's attempt to conquer the channel was postponed yesterday because a stiff breeze kicked up whitecaps. She may make her effort this afternoon.

Braves Overpower N.Y. Giants 13-4

Boston, Aug. 17.—(P)—Right-handed Vern Bickford weathered a first inning storm and, supported by a 15 hit attack, pitched the Boston Braves to a 13-4 victory over the New York Giants tonight before a crowd of 10,093. The Tribe clinched the game with a six run outburst in the second inning when Jimmy Russell potted a four run homer over the wall in left center.

In winning their first game under Acting Manager Johnny Cooney, the Tribesmen rolled up their biggest run total of the season.

Ten men went to bat in the second inning against starter, and loser, Clint (Floppy) Hartung and Adrian Zabala.

After picking up their seventh run in the third the Braves batted around in the fourth for four more. They picked up their other two scores in the sixth.

Cuban, 32, Starts Channel Swim

Cap Griz Nez, France, Thursday, Aug. 18.—(P)—Jose Cortinas, 32-year-old Cuban, starting swimming across the English channel this morning at 12:45 a.m. (5:45 p.m. CST Wednesday).

Cortinas said he hoped to beat the men's channel record of 11 1/2 hours.

Cortinas said he was sorry Shirley May France, American girl swimmer, was not going along with him. "I regret she didn't go," he said, "because I would have liked to have someone to talk to."

Shirley May's attempt to conquer the channel was postponed yesterday because a stiff breeze kicked up whitecaps. She may make her effort this afternoon.

2 Games Tonight At Southside Park

Two games will be played at Southside ball park Thursday night. The curtain raiser, beginning at 7:30, will be between Pepsi Cola and Nesco. The final game will be between V.F.W. and Pepsi Cola. Both games are games which were earlier rained out.

Only the game between the House of Clay and the Elks has been postponed.

Nesbitt Hurls 1-Hitter To Spark Clay Squad; Myers Nine Takes 3rd

The House of Clay negro team from Jacksonville advanced to the state A.S.A. finals, beginning in Danville on August 25, with a hard-fought 2-1 victory over another negro team, the Quincy American Legion in the A.S.A. sectional finals last night. The Clay boys were the only negro team representing Jacksonville in the tournament, and the Quincy Legion was the only other negro squad in the meet.

The House of Clay's victory marks the first time a Jacksonville team has gone to the finals since the Myers Bros. nine in 1946. The eliminations in Danville will feature 14 sectional championship squads from all parts of the state, plus a Danville team and the defending champions of last year, The Moose of Decatur.

Strike Out 16

The outstanding player by far for the House of Clay was their hurler, Nesbitt, who struck out 16 opposing batters, nine of them in succession in the first three innings, and who also knocked in the tying run in the last of the first inning with a single. He allowed only one hit and one run for the entire game.

The championship tilt was a pitchers' duel most of the way as the Quincy hurler allowed only four hits and 2 runs.

The Quincy nine scored first when the first batter walked and stole his way all the way home. The House of Clay came back and scored their first tally when Johnson was safe on an error, went to second on a wild pitch, and scored on Nesbitt's single.

5 Scoreless Innings

From then on until the final frame there was no more scoring on either side. In the last of the seventh Banks, catcher of the House of Clay, beat out a bunt for a single. The next man struck out, as Banks stole second. He went to third on a fielders choice and scored when the Quincy shortstop threw wide to first on Grimsitt's grounder.

And so the team which was almost ruled ineligible by the A.S.A. commissioners, has won the sectional playoff, and with such a close knit team and a pitcher like Nesbitt, they have a good chance to win the state championship.

Myers Bros. Win

In the consolation game between the Myers Bros. of Jacksonville and the Pittsfield Sinclair squad, the home-town squad were also victorious in a 5-3 contest. The Myers squad were ahead all the way, scoring twice in the third inning, once in the fourth, and twice in the sixth.

The Pittsfield crew saved all their scoring ability until the last two innings, but then they didn't have enough to overcome the lead which their opponents had built up.

Trophies were awarded to the first, second, and third place teams of the tournament by the Jacksonville Recreation club who, with the Amateur Softball Association, sponsored the tournament.

Coca Cola, Squires Win Wednesday

Two games were played at Northside park Wednesday night. In the first game Coca Cola won away with the Exchange nine 20 to 5. The Exchange club was held to one hit ball.

The second game was a protest game played over from one out of the sixth inning. In it the Squires nosed out Moose Jrs. 9-7.

Tonight only one game is planned, Stoner vs. Squires at 8:15. This was scheduled for Wednesday night but could not be played because of the protest game.

Thursday's games have been moved up to Friday.

PROHIBITION TROUBLES
Madras, India—(AP)—Prohibition offences are increasing in Madras, India's most completely dry province. In July, there were 5,581 offences in all 25 districts of the province. Nearly half of these were cases of illicit distilling of spirits. The French-Indian settlements adjoining the Madras province are "convenient bases" for liquor smuggling, government reports said. Bottles of liquor are being brought into Indian territory concealed in tea chests.

The government blamed public apathy for the increase in prohibition offences. It said that when prohibition police raided a "suspicious" village in Kurnool district, they were received with a barrage of stones. Even the village prohibition committee failed to cooperate.

in the detection of offences. A member of the provincial legislature, the Yuvaraja of Pithapuram, has given notice of resolution advising the government to drop prohibition in the province which, he says is unsuccessful, and results in the loss of a third of the provincial revenue.

Plan Street Barricades To Reduce Dust Menace

Jacksonville municipal authorities announced last night that barricades will be set up Thursday morning at the entrances of those streets which have been cleared of paving in preparation for the loop paving improvement. This action was deemed desirable, they said, because those streets are becoming very dusty.

The officials said all vehicles not actively engaged in hauling merchandise will be asked to stay outside the barricades.

"We have consulted engineers and other specialists," Mayor Hoagland said, "as to the best way of reducing the dust, which is becoming pretty heavy and noxious. The streets can't be swept and they can't be washed. Keeping all unnecessary traffic off of them promises the most relief."
